TACET

P.E.T - Polyester Acoustic Board

TACET™ PET Polyester Acoustic Panels are an acoustically absorbent panel made from 100% PET plastic with a felt-like finish. These Polyester Acoustic Panels are Porous in nature which makes it ideally suitable for Acoustic Treatment, sound absorption, Heat and thermal insulation. These PET Acoustic Panels can be applied for both Wall Paneling and False Ceiling. Thus, helping in achieving an N.R.C of up to 0.7 to 0.95. Echo Tone™ PET Polyester Acoustic Panel comprises of flame retardant fibers and is an eco-friendly product. It produces no harmful substances when compared to Fiber glass wool insulation or Mineral Rock wool insulation.

APPLICATION RANGE:

They can be used for limitless indoor applications for commercial and non-commercial purposes. With excellent Acoustic characteristics, Tacet PET panels are designed to perform primarily in the medium and high frequencies - a great solution for treating both ceilings and walls. Aesthetically it is available in a wide range of colors and patterns, and can be cut in to any shape desirable whether it is a triangle, Square, Circle or Hexagon.

FEATURES:

- Easy to Install with Excellent Acoustic Properties.
- N.R.C: Upto 0.75.
- Lightweight and durable.
- Better safety features when compared to Glasswool or Mineral Rock wool.
- Scratch Resistant and Washable
- Low shrinkage.
- Low VOC Emissions and 100% Recyclable.

PRODUCT SPECIFICATIONS

Size:
1220mm x 2420mm

Noise Reduction Coefficient (N.R.C):
0.7 - 0.9

Density:
16 Kg / m³.

Thickness:
9mm

Composition:
100% Polyester Fiber (PET)

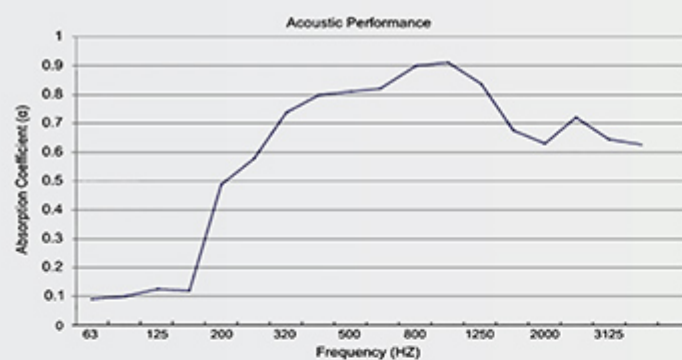

Weight:
9mm Board - 1400 g/sqm

TECHNICAL SPECIFICATIONS

Acoustic Performance

Test Condition:
- 9mm Polyester Fiber Panel
- 100mm Space
